

WARNING.—The Census is taken under authority of the Census and Statistics Act, 1926, which provides penalties for neglect or refusal to supply information, and for false statements, &c.

DWELLING SCHEDULE

CENSUS OF NEW ZEALAND, 17th APRIL, 1951

DIRECTIONS

THERE are two Schedules—the Dwelling and the Personal. Every occupier or person in charge of a dwelling must furnish a properly completed Dwelling Schedule. In addition, he or she is obliged to see that a properly completed Personal Schedule is furnished for every person (man, woman, child, or infant) who abode in the dwelling on Tuesday, 17th April, 1951, and was alive at midnight between 17th and 18th or who arrived at or returned to the dwelling on 18th April without being included in the Census elsewhere.

Under the Act a dwelling means any place used permanently or temporarily for habitation, and includes houses, flats, hotels, institutions, shelters, tents, trains, and vessels in passage from one New Zealand port to another. Where a building is occupied by two or more households in separate flats, each flat is a separate dwelling for Census purposes. Flats, to be regarded as such, must be substantially self-contained in respect of the usual facilities. Ordinary single-room apartments are not flats for Census purposes; their occupants are to be classed as lodgers.

Personal schedules should be attached to the Dwelling Schedule by the top left-hand corner. The Dwelling Schedule should be on top, this side down. A properly endorsed envelope purporting to contain a Personal Schedule (see directions on Personal Schedule) may be accepted and must not be opened.

Census Schedules will be left at every dwelling on or before 17th April, 1951. Failure to have Schedules delivered, however, does not free any person from his responsibility. The Schedules will be called for on 18th April, or as soon as possible thereafter. Householders will assist greatly by having the completed Schedules ready for immediate delivery to the Sub-enumerator. It is the Sub-enumerator's duty to verify the facts, and, if the Schedule from any cause should have been erroneously or insufficiently filled in, to make necessary corrections or additions from inquiries which he is authorized to make for that purpose.

All information on this Schedule is **STRICTLY CONFIDENTIAL** and will be used for statistical purposes only. No individual records are kept once statistics are completed. No individual information will be given to or seen by any other Government Department or any person or body.

G. E. WOOD, Government Statistician.

INSTRUCTIONS FOR ANSWERING QUESTIONS

EVERY QUESTION MUST BE ANSWERED

For vessels, camps, licensed hotels, private hotels, boardinghouses, residential clubs, hospitals, boarding-schools, hostels, prisons, and other institutions, &c., only questions 1-4 (inclusive) and 10 are applicable. In all other cases all questions apply.

Question 4.—Flats and apartments are referred to in the directions above. Ordinary private houses situated in the grounds of institutions, permanent camps, &c., are to be regarded as ordinary dwellings and not as a part of the institution or camp, &c.

Question 5.—Converted flats (*i.e.*, houses or other buildings which have been converted into flats) are not to be included in the category "Built as a flat."

Question 6.—A house with brick walls and wooden gables should be described as "Brick." Walls of galvanized iron on wooden studs should be described as "Iron." If walls on some sides are of one material and on others of another material, state both materials.

Question 9.—A detached building adjoining a dwelling and occupied as a bedroom should be counted as a room of the dwelling.
