

DEPARTMENT OF STATISTICS

CENSUS OF NEW ZEALAND, 22 MARCH 1966

PLEASE SUPPLY CORRECT INFORMATION—The Census is taken under authority of the Statistics Act 1955. It is an offence to neglect or refuse to supply information and to make false statements, etc.

All information on this Schedule is **STRICTLY CONFIDENTIAL** and will be used for statistical purposes only. No individual information will be given to, or seen by, any other Government Department, or any person or body.

J. V. T. BAKER, Government Statistician.

DWELLING SCHEDULE

DIRECTIONS

There are two Schedules – the Dwelling and the Personal. Every **occupier or person in charge** of a dwelling must furnish a properly completed Dwelling Schedule. In addition, he or she is required to see that a properly completed Personal Schedule is furnished for every person (man, woman, child, or infant) **who abode in the dwelling on Tuesday, 22 March 1966, and was alive at midnight between 22 and 23, or who arrived at, or returned to the dwelling, on 23 March, without being included in the Census elsewhere.**

Under the Act a dwelling means a building, erection, or tenement, whether permanent or temporary, which is wholly or partly used for the purpose of human habitation, and includes houses, flats, hotels, institutions, shelters, tents, trains, caravans, aeroplanes, and vessels in passage from one New Zealand port to another. Where a building is occupied by two or more households in separate flats, each flat is a separate dwelling for Census purposes. Flats, to be regarded as such, must be substantially self-contained in respect of the usual facilities. Ordinary single-room apartments are not flats for Census purposes; their occupants are to be classed as lodgers.

Personal Schedules should be attached to the Dwelling Schedule by the top left-hand corner, in the following order. Dwelling Schedule (this side down) on top, then male schedules, with female schedules at the bottom.

A properly endorsed envelope purporting to contain a Personal Schedule (see directions on Personal Schedule) may be accepted and must not be opened.

Census Schedules will be left at every dwelling on or before 22 March 1966. Failure to have Schedules delivered, however, does not free any person from his responsibility. **The Schedules will be called for on 23 March, or as soon as possible thereafter.** Householders will assist greatly by having the completed Schedules ready for immediate delivery to the Sub-enumerator. It is the Sub-enumerator's duty to verify the facts, and, if the Schedule from any cause should have been erroneously or insufficiently filled in, to make necessary corrections or additions from inquiries which he is authorised to make for that purpose.

INSTRUCTIONS FOR ANSWERING QUESTIONS

EVERY QUESTION MUST BE ANSWERED

For vessels, camps, licensed hotels, private hotels, boardinghouses, residential clubs, hospitals, boarding-schools, hostels, prisons, and other institutions, etc., only questions 1 to 5 (inclusive) and 15 are applicable. In all other cases all questions apply.

Question 5—Flats and apartments are referred to in the directions above. Ordinary private houses situated in the grounds of institutions, permanent camps, etc., are to be regarded as ordinary dwellings and not as a part of the institution or camp, etc.

Question 6—A detached building adjoining a dwelling and occupied as a bedroom should be counted as a room of the dwelling.

Question 7—A house with brick walls and wooden gables should be described as "Brick". Walls of galvanised iron on wooden studs should be described as "Iron". If walls on some sides are of one material and on others of another material, state both materials.

Question 13—Where an owner-occupied dwelling is on mortgaged farm land, it should be shown as TP or M, unless expressly excluded from the mortgage. Table Mortgage is a mortgage with the principal and interest payable by instalments over a term. Flat Mortgage is a mortgage with the principal repayable at the end of a term and with interest payable periodically meantime.
