

DEPARTMENT OF STATISTICS

CENSUS OF NEW ZEALAND, 22 MARCH 1966

PLEASE SUPPLY CORRECT INFORMATION—The Census is taken under authority of the Statistics Act 1955. It is an offence to neglect or refuse to supply information and to make false statements, etc.

PERSONAL SCHEDULE

DIRECTIONS

THERE are two principal Schedules - the Personal and the Dwelling. A Personal Schedule must be properly completed by or for every man, woman, child, or infant who was alive at midnight between Tuesday, 22, and Wednesday, 23 March, and was then in New Zealand or on a vessel in New Zealand waters. In addition, the occupier or person in charge of a dwelling (under the Act a dwelling includes a ship, temporary habitation, etc.) must complete a Dwelling Schedule.

Each Personal Schedule when properly completed should be attached (by top left-hand corner, this side down) to and under the Dwelling Schedule **for the dwelling in which the person abode on 22 March or to which he returned or at which he arrived on 23 March without being included elsewhere in the Census.** All Personal Schedules bear the same Schedule No. (see top of form) as the Dwelling Schedule to which they should be attached.

All personal information on this Schedule is **STRICTLY CONFIDENTIAL** and will be used for statistical purposes only. No personal information will be given to or seen by any other Government Department or any person or body. If additional privacy be desired, the Personal Schedule only, when properly completed, may be enclosed in an envelope and sealed, provided that the Census District No., Sub-district No., and Schedule No. (see top of form) and the name and sex of the person be written on the face of the envelope. Envelopes so sealed may not be opened either by the occupier of the dwelling or by the Census Sub-enumerator. However, if a Personal Schedule so sealed is not completed in good faith, it may be returned through the Sub-enumerator for completion. Envelopes containing Personal Schedules must still be attached to the Dwelling Schedule for the household. The Dwelling Schedule must not be sealed.

The success of a Census requires the active cooperation of the whole of the people; it is hoped that this aid will be freely given by all.

J. V. T. BAKER, Government Statistician.

INSTRUCTIONS FOR ANSWERING QUESTIONS

EVERY QUESTION MUST BE ANSWERED

Question 6—State age in years and completed months (e.g., 46 years 10 months). An infant aged 6½ months would be 0 years 6 months. An infant under one month would be 0 years 0 months. Where age is not known for certain, give as correctly as possible.

Question 7—Do not include your children if adopted by others, or children staying with you as guests.

Question 8—Where frontiers have been changed, state name of country on frontiers as now existing. If born overseas, state number of years lived in New Zealand, disregarding temporary absences.

Question 9—Where of more than one race enter names of the races and state as closely as possible the degree of each as, ¼ Maori - ¼ European; ¼ Maori - ¼ Chinese; ¼ European - ¼ Chinese, etc.

Question 10—For a child, state the religion in which it is to be brought up.

Question 12—Managers of companies should enter **W** not **E**. A partner in a business is **E** or **O** according to whether labour is employed. Members of the armed forces should enter **W**. If unemployed, but not seeking work - for example, between jobs - enter **E**, **O**, or **W**, as applicable. If invalid or sick or under detention and not likely to be available for employment within three months after Census date, enter **N.A.**; otherwise give usual status when working.

Questions 14 and 15—Industry refers to the type of business or organisation in which the individual works; occupation refers to the trade, profession, or type of work in which the individual is engaged, irrespective of the branch of industry to which he is attached.

“Farming” is not a sufficient answer to “industry”; a farmer should state whether a dairy farmer, sheep farmer, grain farmer, etc., and should state “mixed farming” only where one class of his farming is not predominant. Similarly, if engaged in contracting, state whether “building contracting”, “carrying contracting”, “ploughing contracting”, etc., whichever applies. If engaged in trade or commerce, state the commodity dealt in or made, and whether manufacturing, wholesale, or retail.

Occupation should be stated in definite terms to distinguish the nature of the work done. For example, “driver” is insufficient; it should be “motor truck driver”, “bus driver”, “delivery van driver”, “locomotive driver”, etc.; a nurse should state whether registered or non-registered or pupil in training; an engineer should state whether civil, electrical, mechanical, etc.

For school children, “scholar”, and for unpaid domestic duties **D.D.** are sufficient answers to both questions. Retired persons should state former industry and occupation. If unemployed, state usual industry and occupation.

Question 16—Estimate income for the 12 months ending 31 March 1966 as closely as possible. Income should include the value of housing, board, and goods or services supplied free by the employer. For persons engaged in business on their own account or as employers, please give net income for the year. Wives and other dependants should not treat as income allowances (such as housekeeping allowances) which are not payments for employment.

Question 17—Those attending Forms I and II at an Intermediate School should include the years spent in these forms under “Primary School”.
